

KAPPA PHARMACY ERP

KAPPA PHARMACY ERP is an application developed using the .NET Framework and utilises SQL Server 2022.

It inherits all the features and functionality of KAPPA PHARMACY.

Due to the use of SQL Server, it has two significant advantages compared to our previous software:

- Unlimited data capacity
- Much higher speed compared to the previous system, which used Microsoft Access

To **KAPPA PHARMACY ERP** is an **ERP software**
